## Fund Management

BT Investment Management Limited

## Investment Objective

Aims to provide an overall return that exceeds the return from its benchmark, when measured over the recommended investment timeframe.

## Investment Strategy

The Fund is actively managed and invests directly or indirectly in primarily Australian shares that we believe are trading at a significant discount to their assessed value.

## Investment Performance

Performance (%) (as at 31/12/2011)	3 months	1 year (pa)	3 years (pa)	5 years (pa)	Since Incep.(pa)
Total Return (post-fee, post-tax)	2.10	-8.58	6.96	-0.97	8.08

Investment returns shown are historical and can go up and down. Past performance is not a reliable indicator of future performance and future performance is not guaranteed.

## Progress of the Portfolio Investment

### Fund performance

The fund outperformed the benchmark (on a pre fee/pre tax basis) during the December quarter of 2011. Our overweight position in Brambles was the largest contributor to performance coupled with our underweight position in BHP, which fell by 1.43% during the quarter as iron ore prices softened. Detracting from performance was our overweight position in JB Hi-Fi, which fell by 26% following the announcement of weak earnings expectations.

### Market outlook

The slowdown in the Chinese economy has put pressure on the Australian market and in particular the resources sector. Our view is that the Chinese economy may well continue to slow in the shorter term as authorities continue to try to get a grip on the overheating property market. Despite this, we do not think a 'hard landing' is a likely outcome. Rather, we believe that authorities will take measures to stimulate growth and given the tightening measures that were implemented last year, they have considerable levers at their disposal. The end of 2011 saw ongoing woes in Australia's retail sector. We will be watching the New Year period with interest, not only to assess specific earnings prospects for companies in this sector but also as a key barometer for general consumer sentiment.
