## **About this Annual Report**

The information in this Annual Report is issued by the Trustee of your fund. BT Funds Management Limited ABN 63 002 916 458, AFSL No. 233724, RSE L0001090 is the Trustee of BT Life Superannuation Trust ('Fund'). BT Lifetime Super – Employer Plan is part of the Fund and has prepared this annual report, which is a resident regulated superannuation fund within the meaning of the Superannuation Industry (Supervision) Act 1993 ('SIS').

The Fund is not subject to a direction from the regulator not to accept employer contributions under section 63 of SIS. The RSE Registration Number for the BT Lifetime Super – Employer Plan is R1003901 and its ABN is 65 890 046 105. BT Funds Management Limited is the issuer of interests in BT Lifetime Super – Employer Plan. A PDS or other offer document for the relevant financial product is available by calling us on 132 135 or visiting [www.bt.com.au](http://www.bt.com.au). You should consider the PDS or other offer document before making any decision to acquire or to continue to hold any product.

All assets of the Plan are invested in a policy issued by BT Life Limited ABN 29 003 773 680, AFSL No. 233 719 ('BT Life') from its No. 3 statutory fund. BT Life is also responsible for the administration of the Plan.

Any statements as to past performance are not necessarily indicative of future performance. It is general and summary information only and should not be considered as a comprehensive statement on any matter and should not be relied on as such. It does not take into account your objectives, financial situation or needs. These should be considered before investing and we recommend you consult a financial adviser. A financial services guide in relation to the Trustee is available by calling BT Customer Relations on 132 135.

The taxation position described in this Annual Report is a general statement and should only be used as a guide. It does not constitute tax advice and is based on current tax laws and their interpretation. Your individual situation may differ and you should seek independent professional tax advice on any taxation matters. This Annual Report has been prepared without taking account of your objectives, financial situation or needs. Because of this you should, before acting on the Annual Report, read the product disclosure statement for the fund and consider the appropriateness of all information having regard to your objectives, financial situation and needs.

BT Funds Management Limited is a member of the Westpac Group. Any investment in BT Super or any Investment Option offered in this Annual Report is not a deposit with or any other liability of Westpac Banking Corporation ABN 33 007 457 141 (Westpac) or any other company in the Westpac Group of companies. Investments are subject to investment risk including possible delays in repayment or loss of income and principal invested. None of Westpac or any of its related entities stands behind or otherwise guarantees the capital value or investment performance of this product or any of its Investment Options or any related assets.

# Changes to Your Fund

## Currency Hedging on the Westpac Balanced Investment Option

From April 2009, a 35% hedge was introduced on the currency exposure of the international equity component of the Westpac Balanced Investment Option.

We believe this change will provide a small reduction in currency-related performance volatility and some long term benefits to investment returns.

From the same date, the performance benchmark for the international equity component of the Investment Option has been adjusted to reflect this level of hedging.

Investment Option	Investment manager's currency strategy for non-Australian Investment Options
Westpac Balanced	Partially hedged international shares; fully hedged international fixed interest.

## Changes to Credit Suisse Investment Options

From 1 May 2009, the name of the following Investment Options will be changed to the new names specified in the table below:

Investment Option	
New name	Previously known as
Aberdeen Australian Small Companies	Credit Suisse Australian Small Companies
Aberdeen International Shares	Credit Suisse International Shares

## Fees and Costs

The fees and costs deducted from your account are shown on your Annual Statement.

Further information about the fees and costs are detailed in the BT Lifetime Super Employer Plan Product Disclosure Statement available from your financial adviser, the BT online website at [www.bt.com.au](http://www.bt.com.au) or by calling BT Customer Relations on 132 135.

The following fees have changed from 1 July 2009 in line with the Consumer Price Index (CPI).

The fees shown are for the 2009/2010 financial year. Monthly Member fee: \$6.15 (previously \$6.00).

## Change in the maximum amount of insurance commission payable

From 1 October 2009, the Insurer may pay BT Life (as administrator of BT Lifetime Super – Employer Plan) an amount of up to 23% of premiums (formerly 10%) as a fee for services and reimbursement for expenses incurred in relation to the insurance arrangements for BT Lifetime Super – Employer Plan.

Additionally, the Insurer may pay companies within the BT Financial Group Pty Ltd (ABN 38 087 480 331) a fixed dollar payment per annum, an amount which represents up to 4% of total premiums as a fee for services and for expenses incurred in relation to the insurance arrangements for BT personal and corporate superannuation funds. For example, for an annual premium of \$100 this would equate to \$4 payable by the Insurer to companies within the BT Financial Group.

These payments are not additional fees or charges payable by you or your employer. The payments are retained by BT Life or another related entity and may change over time.

## Suspension of the APN Property Income Fund No 2 Investment Option

APN Funds Management Limited has advised the market of a temporary change to its application and withdrawal policy for APN Property Income Fund No 2 Fund which affects the APN Property Income Fund No 2 Investment Option offered through BT Lifetime Super – Employer Plan.

Until further notice, the Trustee cannot:

- 1\_accept applications (ie contributions) into the APN Property Income Fund No 2 Investment Option
- 2\_process any investment switches into or out of the APN Property Income Fund No 2 Investment Option, or
- 3\_process any redemption requests from the APN Property Income Fund No 2 Investment Option.

The Trustee has taken these steps in accordance with its duties under superannuation law and the Trust Deed for the Plan.

Consistent with the above information, all application (ie contributions), investment switch or redemption requests in respect of the APN Property Income Fund No 2 Investment Option have been cancelled from the effective date.

Generally, withdrawals will only be permitted where members are suffering from hardship, in the following circumstances:

- severe financial hardship, or
- compassionate grounds, or
- permanent incapacity,

but only where there are sufficient remaining liquid assets for the day to day operation of the fund.

## Enhancements and changes to insurance

From October 2009, the insurance features of BT Lifetime Super – Employer Plan will be enhanced to provide more flexible insurance cover. Changes to the insurance features available include:

- removal of the minimum level of cover for Death and Total & Permanent Disablement (TPD)
- increased maximum level of TPD cover for members and employer or self-employed spouse members from \$2.5 million to \$3 million
- introduction of Accidental Total Disability cover while your application or increase for SCI cover is being assessed by the Insurer
- increase in Automatic Acceptance Limits (AAL) for Death, TPD and SCI cover
- increase in the short form underwriting maximum sums insured from \$400,000 for Death and TPD cover to \$1m for Death Only cover and \$800,000 for Death and TPD cover
- introduction of New Events cover.

Detailed information about these changes will be available in the BT Lifetime Super – Employer Plan Product Disclosure Statement, available online at [www.bt.com.au](http://www.bt.com.au), from 1 October.

## Recent developments in superannuation

### Temporary Residents

The Government has introduced changes which alter the circumstances under which temporary residents of Australia can access their super benefits.

### Accessing your superannuation benefit

From 1 April 2009, if you are, or were, a temporary resident you can only access your preserved superannuation benefits if:

- you have departed Australia permanently and your visa has ceased
- you become permanently incapacitated, or
- you have a terminal medical condition.

In addition, your beneficiaries may access your benefits upon your death.

If you satisfied a condition of release prior to 1 April, you may still also be able to access your preserved superannuation benefits. You should speak to your financial adviser.

### Who is classified as a Temporary Resident for the purposes of this legislation?

A temporary resident is a holder of a temporary visa under the Migration Act 1958.

This legislation does not effect:

- Australian citizens
- New Zealand citizens
- permanent residents of Australia, or
- holders of a retirement visa (Subclass 405 or 410).

### Treatment of accounts of temporary residents who have left Australia

The Australian Government requires the BT Lifetime Super – Employer Plan Trustee to pay temporary residents' unclaimed superannuation to the ATO after at least 6 months have passed since the later of:

- the date a temporary resident's visa ceased to be in effect, and
- the date a temporary resident permanently left Australia.

The ATO identifies and informs the Trustee of the impacted members on a twice yearly basis. Once the benefit has been transferred to the ATO, members are required to claim the benefit directly from the ATO ([www.ato.gov.au](http://www.ato.gov.au)). The Trustee will not issue an Exit Statement upon transferring a benefit to the ATO.

In the event that the benefit has not yet been transferred to the ATO, members are able to claim it from BT Super under the Departing Australia Superannuation Payments (DASP) regime.

The tax rates for a DASP, will increase for all payment requests received from 1 April 2009 as per the following table:

Components	New rates from 1 April 2009	Rates prior to 1 April 2009
Tax free component	0%	0%
Taxable component – taxed element	35%	30%
Taxable component – untaxed element	45%	40%

Full information regarding DASP procedures and current taxation rates can be found at [www.ato.gov.au](http://www.ato.gov.au).

### Payment of benefits as a result of terminal medical condition

If you are diagnosed as suffering from a terminal medical condition, you are now able to access your preserved superannuation benefits and any benefit payment you receive because of this condition will be exempt from tax.

You will be taken to be suffering from a terminal medical condition if two registered medical practitioners certify that the member suffers from an illness, or has incurred an injury that is likely to result in their death within a period of 12 months (the certification period). One of these certifying practitioners must be a specialist practicing in an area related to the member's injury or illness.

If you satisfy this condition of release, all benefits which have accrued up to this time become unrestricted non-preserved. This condition of release also covers the certification period, meaning that any further benefits accrued within the 12 month

# Changes to Your Fund

certification period will also be treated as unrestricted non-preserved benefits.

## What if you received a cash lump sum under another condition of release?

If you received a superannuation lump sum payment after 1 July 2007 under another condition of release and you have a terminal medical condition, you may be entitled to a refund of the tax withheld.

You will need medical certification stating that you had a terminal medical condition (as outlined above):

- at the time the payment was made, or
- within 90 days of receiving the payment, or
- for 2007/08 financial year only, by 30 June 2008.

If you are applying for a refund after 21 July of the following financial year in which you received the payment, you will need to apply for a refund from the Australian Taxation Office (ATO). More information can be found on their website at [www.ato.gov.au](http://www.ato.gov.au).

## Changes relating to same-sex relationships

At the end of 2008, new legislation was introduced to eliminate discrimination against same-sex couples. This law reform package ensures that in relation to superannuation, taxation and family law matters, partners in and children of same-sex relationships are treated in the same manner as partners in and children of marital relationships.

In order to facilitate this change the definition of 'spouse' has been amended to include the following:

- your husband or wife via marriage, or
- your de facto partner or any other person with whom you are in a relationship (provided that this relationship is registered under a certain state or territory law), or
- another person who, although not legally married to you, lives with you on a genuine domestic basis in a relationship as a couple.

This broader definition of spouse means that the following incentives are applicable to all spouses (including those in a same-sex relationship):

### Spouse contributions

Your spouse may make contributions to your super, as long as the contribution is paid from an account in the name of the contributing spouse or a joint account where the contributing spouse is an account holder.

### Tax offset for spouse contributions

Your spouse may be able to claim a tax offset of up to \$540 for contributions they make to your superannuation account (note

that the maximum offset will be available if your income is below \$10,800 pa and reduces to \$0 once your income is \$13,800 pa, and Government eligibility rules apply).

### Contributions splitting

You are able to split certain superannuation contributions with your spouse as allowed under superannuation law. Full details about how to split contributions with your spouse are available in the BT Lifetime Super – Employer Plan Super Contributions Splitting Application form available at [www.bt.com.au](http://www.bt.com.au).

### Nomination of beneficiaries

Your spouse may be nominated as a beneficiary to receive your Death Benefit. Full details about how to make a death benefit nomination are available on the Nomination of Beneficiaries form available at [www.bt.com.au](http://www.bt.com.au).

### Family Law

Your spouse is covered under the Family Law Act 1975 ('the Act'), which deals with the treatment of superannuation on relationship or marriage breakdown. The Act provides that a member's superannuation benefit may be split with the member's spouse or former spouse on marriage or relationship<sup>1</sup> breakdown. Alternatively, a payment flag may be imposed on the member's superannuation benefit.

In order for the Trustee to commence any payment split or impose a payment flag on your BT Super account, the Trustee must have been served with either:

- a superannuation agreement, made between you and your spouse or former spouse, and in accordance with the requirements of the Act, or
- an order of the Family Court of Australia, that specifies how your benefit is to be split with your spouse or former spouse or that a payment flag must be applied to your account.

The Act also specifies that the Trustee must be provided with certain evidence of marriage or relationship breakdown if you serve a superannuation agreement on the Trustee. You and/or your spouse or former spouse may arrange for the required documents to be served on the Trustee. Documents can only be served on the Trustee for the purposes of the Act at the following address:

Family Law and Superannuation Officer  
Legal Department  
BT Funds Management Limited  
Level 20, 275 Kent Street  
Sydney NSW 2000

All documents served on the Trustee should be either an original or a certified copy.

<sup>1</sup> Legislation to expand the Family Law Act to cover relationship breakdown as well as marriage breakdown came into effect on 1 March 2009 (with possible exception of South Australia and Western Australia).

If the Trustee is required to effect a payment split on your benefit, the value of your account will reduce by the amount that is paid to, or for the benefit of, your spouse or former spouse.

### Increase in superannuation thresholds

Each year, various thresholds used in the calculation of superannuation benefits and limits are indexed to keep pace with average weekly ordinary time earnings (AWOTE). Some of the thresholds that apply for the 2009/10 financial year are as follows:

Low rate cap:	\$150,000
Concessional contributions cap:	
→ Age 50 or over	\$50,000
→ Under age 50	\$25,000
Non-concessional contributions cap:	\$150,000
Capital Gains Tax (CGT) Cap (lifetime limit):	\$1,100,000
Maximum Earnings Base (per quarter):	\$40,170
Government Co-contributions:	
→ Maximum co-contribution <sup>1</sup>	\$1,000
→ Lower threshold	\$31,920
→ Upper threshold (cut off)	\$61,920

### Government superannuation co-contribution

A temporary reduction of the co-contribution matching rate from \$1.50 to \$1.00 will apply for the period 1 July 2009 to 30 June 2012 after which it will gradually return to the current rate as shown in the table below.

	2009/10 to 2011/12	2012/13 and 2013/14	2014/15 onwards
<b>Matching rate</b>	100%	125%	150%
<b>Maximum co-contribution</b>	\$1,000	\$1,250	\$1,500

This means, for 2009/10, if you meet the Government co-contribution eligibility criteria, make a personal after-tax contribution and your total income is less than \$31,920 the Government will contribute \$1.00 for each dollar you contribute up to \$1,000 pa. The maximum co-contribution payable is phased out by 3.333 cents for every dollar you earn over \$31,920, until your total income reaches \$61,920.

There are no changes to the eligibility criteria for the Government co-contribution.

### Concessional contributions cap

For 2009/10 financial year, the concessional contributions cap will be reduced from \$50,000 to \$25,000 per member. In subsequent years, the concessional contributions cap will be indexed to Average Weekly Ordinary Time Earnings (AWOTE), rounded down to the nearest \$5,000.

The transitional concessional contributions cap will be reduced from \$100,000 to \$50,000 (not indexed) per member per year for 2009/10, 2010/11 and 2011/12 (transitional financial years). The transitional cap applies to members aged 50 or over at any time in a transitional financial year.

From 1 July 2009, the non-concessional contributions cap will be set at six times the concessional contributions cap. This means for 2009/10 the non-concessional cap will remain at \$150,000 (six times the concessional contributions cap of \$25,000).

### Upcoming legislative change

#### Unclaimed money

On 12 May 2009, as part of the 2009 Federal Budget, the Government announced their intention to introduce new unclaimed money requirements effective from 1 July 2010. If these requirements are legislated, superannuation providers will be required to transfer to unclaimed monies, accounts of lost members with balances of less than \$200, and accounts which have been inactive for a period of five years and have insufficient records to identify the owner of the account. It is proposed that former members of these accounts will be able to reclaim their money from the ATO.

### Information that may change

Where changes to information occur that does not adversely affect you, you may be informed in the next Annual Report for the Fund. Such information includes, but is not limited to, changes in:

- investment managers
- the underlying insurer
- Investment Options (closing or terminating)
- fees.

Where required by law, written notification will be provided giving 30 days notice of the changes.

<sup>1</sup>The maximum co-contribution payable is phased out by 3.333 cents for every dollar of total income over the lower threshold, until it reaches zero at the upper threshold.

# Understanding your Investment

## How we calculate performance

Performance figures are calculated in accordance with the Investment & Financial Services Association (IFSA) standards.

Total returns are calculated:

- using withdrawal prices appropriate for the month end
- taking into account management costs other than Member fees of the relevant Investment Option, and
- taking into account earnings tax up to a maximum of 15% plus withholding tax paid on foreign income (if any).

Certain other fees such as Contribution fees or Withdrawal fees (if any) are not taken into account.

The most recent past performance information is available via our website at [www.bt.com.au](http://www.bt.com.au), by calling BT Customer Relations or your financial adviser. Investment returns are historical. Investments can go up and down and past performance is not necessarily indicative of future performance.

Future performance is not guaranteed.

## How we calculate unit prices

Each Investment Option has its own unit price, which is the monetary value of one unit. Generally unit prices are calculated each Business Day in accordance with the Trust Deed by dividing the net value of the relevant Investment Option by the total number of units on issue in relation to the Investment Option.

The overall effect for the Investment Option is that:

- prices are based on the net value of the Investment Option's assets, generally as next calculated by us after each cut-off time
- asset values will usually be based on closing prices or, where appropriate, other price quotes, most recently available to us at the time we make the calculation
- entry prices are usually higher than exit prices. The difference is called unit price rounding.

There are two types of unit prices, entry and exit prices. Entry and exit prices for each Business Day will usually be posted on our website by the end of the next Business Day.

## Changes to unit pricing

We can change the way in which we calculate unit prices. Information regarding any such change will be available on our website or by calling BT Customer Relations. Notice will not ordinarily be provided, however we may provide notice on our website. We can delay or suspend release of prices due to volatile market conditions.

## Use of Derivatives

These are investments whose value is derived from other assets, such as shares, and may be used as part of the portfolio

management process. Futures contracts and options are examples of derivatives.

Derivatives may be used to reduce risk and can act as a hedge against adverse movements in a particular market and/or in the underlying asset. Derivatives can also be used to gain exposure to assets and markets.

While derivatives offer the opportunity for significantly higher gains from a smaller investment (because of the effective exposure obtained) they can also produce significantly higher losses, sometimes in excess of the amount invested.

The investment managers are required to have strict policies and procedures on the use of derivatives and generally are not permitted to use derivatives to gear the Investment Options unless otherwise stated.

## Hybrid securities

These are securities used by companies to raise money, that combine both debt and equity characteristics. They include convertible preference shares and notes, preferred units and stapled preference shares and notes. These securities usually provide a fixed rate of return that may be tax effective.

## Net Earnings

The earnings rate for members in an Investment Option is reflected in the price of the units, rather than being credited or debited against the accounts of members. A change in the value of the members' unit price generally reflects the earnings of the supporting assets in the Investment Option.

## Switching Investments

BT Super has a range of Investment Options. Members can choose to invest in any combination of these Investment Options (new contributions, rollovers or transfers can be split between up to six Investment Options). No switching fee applies for switches made between Investment Options. There is no limit on the number of Investment Options for your account balance. To make a switch, simply log in to our secure website at [www.bt.com.au](http://www.bt.com.au) or download and complete an Investment Choice/Switch Request form. Please refer to the BT Lifetime Super – Employer Plan Product Disclosure Statement on our website for further information on switching.

## Changes to Investment Option details

To maintain the quality and diversity of our product range, we may make changes to the Investment Options at any time, including:

- adding, closing or terminating an Investment Option (including transferring an Investment Option into other Investment Options)
- changing an Investment Option's objective, investment strategy, asset allocation neutral position and ranges or currency strategy (if any)

- changing the rules that govern an Investment Option (eg changing fees, notice periods or withdrawing features)
- removing or adding an investment manager or investment consultant.

### **Method of allotment of earnings in all Investment Options**

All income, including realised and unrealised capital gains and losses, and expenses for all Investment Options are brought to account and are fully reflected in the unit price of that option. Income tax as appropriate is provided for in the unit price for each Investment Option.

### **Restriction on application, switching, and withdrawal**

Under certain circumstances allowed under superannuation law and the Trust Deed (for example, where it would prejudice the interests of other members of the fund), we may delay, suspend or not process your contribution, switching or withdrawal requests.

In certain circumstances we reserve the right to delay or suspend unit prices, apply a special price or not process future application, switching or redemption requests.

### **Net value of an Investment Option**

The net value of an Investment Option is the value of all investments and cash held by the Investment Option less amounts owing or payable in respect of the Investment Option including any provision that is considered necessary.

For example, provision might be made for possible future losses on an investment that is considered to be overvalued or cannot be fairly determined. A full description of the valuation method is given in the Trust Deed.

The net value of an Investment Option may include an asset known as Future Income Tax Benefit (FITB). A FITB arises when, for tax purposes, a loss is available to offset a future gain (ie so as to reduce the amount of gain that might otherwise be taxable). Our policy is to recognise FITBs in BT Super as a separate asset of the relevant Investment Option. Like any other asset in an Investment Option, the value of a FITB is reflected in the unit price for that Investment Option, through the calculation of the net asset value.

The value of a FITB can change over time based on the likelihood of being able to offset the losses against future gains and the time at which they can be used. Accordingly, changes in the value of a FITB asset may cause unit prices to change (as is the case with a change in the value of any other asset in the Investment Option).

The level of FITB recorded in the unit price of an Investment Option may be 'capped', taking into account the probability that accrued losses are able to be offset against future gains. The

Joint ASIC and APRA Unit Pricing Guide to Good Practice, and BT policy require that FITB only be recognised in the net asset value and unit price of an Investment Option to the extent that the deferred tax benefit is expected to be realisable in the future. It may be necessary to reduce the level of FITB to ensure that the value of the Investment Option (and the unit price) is not over-stated.

### **Performance information**

While BTFM will manage the assets and exposures of these Investment Options consistently with the investment policy for these Investment Options as stated in this Annual Report, past performance of Investment Options offered should not be taken as an indication of future performance.

### **Investment in life policy**

As permitted by the Corporations Act, certain financial and investment information have not been included in this report on the basis that the BT Lifetime Super – Employer Plan invests 100% of its assets through a life policy.

The Fund does not invest directly in derivative securities.

### **Small balances – BT Investor Protected Investment Option**

If at any time the amount of your benefit in the Fund is less than \$1,000 and includes or has included Superannuation Guarantee or award contributions by your employer, Government regulations limit the amount of charges that can be deducted from your benefits (member protection).

The Trustee has established an Investment Option known as BT Investor Protected Investment Option to cater for small balances within BT Lifetime Super – Employer Plan. If your initial investment is less than \$1,500 or if your balance falls below \$1,200, it will be invested in the BT Investor Protected Investment Option.

This means that you may not automatically commence in the Investment Option you have selected or the default Investment Option. If, at the end of the calendar month, the balance of your investment is in excess of \$1,500, we will automatically transfer your money into the Investment Options nominated when you joined your employer's super plan (either by you or your employer or the default Investment Option if you or your employer make no nomination). However, if at any time during a month a transfer is received from another super fund that increases your balance over \$1,500, your money will be switched into the relevant Investment Option(s) at that time. If your initial investment into BT Lifetime Super – Employer Plan is a contribution rather than a transfer from another fund, that contribution will initially be invested in the BT Investor Protected Investment Option, regardless of the amount of the contribution, and then will be switched into the relevant Investment Option(s) at the end of the month once the total balance exceeds \$1,500.

	Challenger Wholesale Select Australian Share Fund	Challenger Managed Investments Limited — To outperform the S&P/ASX 200 Accumulation Index over rolling five-year periods.	Challenger is an active manager and believe they can add value and outperform the market by using fundamental research to identify companies mispriced or overlooked by the market. As a 'style neutral' manager, Challenger invest in companies that exhibit both value and growth characteristics. They focus on identifying companies that are undervalued and they believe will be rerated by the market. This investment approach moderates the cyclical swings from growth and value investing and can outperform over the full business cycle.	Visit <a href="http://www.challenger.com.au">www.challenger.com.au</a> .
	SSgA Australian Equities Index Trust	State Street Global Advisors — The SSgA Australian Equities Index Strategy is designed to closely track the return of the S&P/ASX All Australian 200 Accumulation Index.	Exposure is gained to each stock in the S&P/ASX All Australian 200 Accumulation Index as close as possible to the weight in the index. By doing so, the returns produced should closely mirror those of the index.	Visit <a href="http://www.statestreet.com.au">www.statestreet.com.au</a> .

Dynamic <sup>1</sup>	BT Ethical Share	BTIM — Aims to provide a return that exceeds the return from its specified benchmark over the recommended investment timeframe.	Is actively managed and invests primarily in Australian companies that we believe to be trading at a significant discount to their assessed valuation. The Investment Option will not invest in companies which: → directly mine uranium for the purpose of weapons manufacture → produce tobacco or alcohol → manufacture or provide gaming facilities → manufacture weapons and armaments, or → have been subject to environmental and/or human rights prosecutions. We may invest in companies which mine or use uranium primarily in relation to power generation. We actively seek companies which we feel demonstrate superior environment and social practices and offer sustainable products and services. This includes companies already listed on the Australian Stock Exchange and investments in initial public offerings.	Visit <a href="http://www.bt.com.au">www.bt.com.au</a> or call 132 135.
	Aberdeen Australian Small Companies	Aberdeen Asset Management — To outperform the benchmark, the S&P/ASX Small Ordinaries Accumulation Index, after fees, over rolling three year periods, by investing primarily in small companies listed on the ASX.	The investment strategy of the Fund is to utilise Aberdeen's proven investment philosophy and approach to invest primarily in a concentrated portfolio of small companies (outside of the S&P/ASX 100) that are listed on the ASX and have the potential for capital growth and increased earning potential. Our equity managers seek to identify and invest in good quality Australian listed securities through first hand company visits. Quality is chiefly an evaluation of a company's management, balance sheet and business model.	Visit <a href="http://www.aberdeenasset.com.au/">www.aberdeenasset.com.au/</a> or call 1300 366 890.
	ING Blue Chip Imputation	ING Investment Management Limited — The Fund aims to achieve returns (before fees, charges and taxes) that exceed the S&P/ASX 100 Accumulation Index, over periods of three years or more.	The Fund invests predominantly in a diversified portfolio of large Australian companies which provide a relatively high level of franked income, selected in accordance with INGIM's Australian shares investment process.	Visit <a href="http://www.ing.com.au">www.ing.com.au</a> or call 133 665.
	Investors Mutual Australian Share	Investors Mutual Limited — Aims to provide a return that exceeds the return from its specified benchmark over the recommended investment timeframe.	The Fund will invest in a diversified portfolio of quality Australian industrial and resource shares, where these are identified by the investment team as being undervalued.	Visit <a href="http://www.iml.com.au">www.iml.com.au</a> .
	Fidelity Australian Equities Fund	FIL Limited — The manager, FIL Limited, is one of the world's oldest and largest fund managers. The Fidelity Australian Equities Fund aims to produce long-term capital appreciation greater than the S&P/ASX 200 Accumulation Index over the suggested investment time period of five years.	The Fidelity Australian Equities Fund invests in the securities of companies listed in Australia and may also invest in companies located elsewhere that derive a significant proportion of their earnings from Australia. Fidelity International has a research intensive, stock by stock process and the fund is not constrained to tracking the industry sector weights that comprise the S&P/ASX 200 Accumulation Index. The portfolio manager is free to select companies based on their merits, regardless of size or industry. The manager employs an active, bottom-up, research-driven investment style consistent and currently seeks stocks whose earnings potential is undiscovered and favours companies with superior management, a competitive edge, strong brand name or technological advantage, sound balance sheet, strong free cash flow and low gearing. # Additional Information

## Transfer to an Eligible Rollover Fund (ERF)

Your benefits may be transferred to an ERF if:

- your payment instructions are not accepted by your nominated rollover institution
- you have requested a cash payment but you fail to present the cheque and the cheque goes stale
- we are unable to contact you (eg no address on our records or letters returned to us unclaimed)
- contributions cease to be made on your behalf to the Fund
- if you request to transfer your benefit to another fund and we cannot process that request due to insufficient information, or the other fund returns the money to us as they have been unable to process the request
- you cease to be the spouse of a member of the Fund
- other circumstances the Trustee considers appropriate.

Once your benefit has been transferred to the ERF we have nominated:

- your membership in the Fund and any insurance cover will cease
- you will need to apply directly to the ERF for access to your benefits
- you will not be able to make contributions to the ERF
- you will have no investment choice and the trustee of the ERF will nominate the investment strategy.

The ERF will normally ensure that your benefit will not be eroded by fees and charges, however, other fees may apply. Please refer to the ERF's disclosure document for more details.

The contact details for the ERF we have chosen are:

**SuperTrace Administration**  
**SuperTrace Eligible Rollover Fund**  
**Locked Bag 5429**  
**Parramatta NSW 2124**

## Policy Committee procedures for your superannuation plan

Under superannuation law, your employer must establish a policy committee if your employer's plan has 50 members or more. The policy committee will serve as an avenue for you to ask the Trustee for specific information and lodge complaints or enquiries about the operation or management of your super plan.

Information about how to establish a policy committee will be sent to all members if your employer plan has 50 or more members. For employer plans for between 5 and 49 members, a policy committee

must be established if requested by at least 5 members in writing.

Please refer to your Annual Super Statement for details about the relevant policy committee (if any) and details of the names of the committee members at the end of the reporting period.

## Fund reserves

The Fund allows for a reserve account to be set up in respect of each super plan. If your employer plan has a reserve account, details of the movements in your plan's reserve account and its management strategy will be disclosed to you in the Employer Reserve Account flyer which forms part of the Annual Report.

## Leaving your employer

You (and your spouse where applicable) are no longer eligible to remain in your employer's plan when you:

- have left employment, or
- are a sole trader or business partner and have ceased actively working in the business.

Once we have been advised by you (or your employer) that you are no longer eligible to remain in your employer's plan, we will send you an information pack outlining your options, which include:

- transferring your benefits to BT Lifetime – Personal Super, or
- transferring your benefits to an alternative super fund nominated by you.

We will write to you at this time setting out the options available as determined by the Trustee. Unless you provide alternative rollover instructions, after 45 days from when you receive this information, your benefits will automatically transfer to BT Lifetime – Personal Super.

The Trustee may vary any minimum transfer amount at any time and the Trustee of BT Lifetime – Personal Super may vary any minimum entry amount. The Trustee may do this for individual members or groups of members at their discretion (with or without notice).

## Indemnity Insurance

The Trustee is indemnified by a policy of insurance in respect of its duties as Trustee of the Plan.

## Complaints resolution

Complaints resolution is a priority for us. If you have any concerns or complaints with the financial products or services we provide, please contact us and we will do our best to resolve it quickly and fairly.

As a first step, please contact us by calling BT Customer Relations. Alternatively, you

can contact us by email or in writing to the Complaints Officer at:

Complaints Officer  
BT Financial Group  
GPO Box 2675  
Sydney NSW 2001

We will let you know that we have received your complaint and a Complaints Officer will try to resolve your complaint within 90 days. If you remain dissatisfied with our response, or have not received a response within 90 days, you may contact the Superannuation Complaints Tribunal (Tribunal) by calling 1300 780 808 or writing to:

Superannuation Complaints Tribunal  
Locked bag 3060  
GPO Melbourne VIC 3001

The Tribunal is an independent body established by the Government to help members of superannuation funds resolve complaints.

The Tribunal will attempt to resolve your complaint through conciliation, helping you and the Trustee to reach an agreement. If your dispute cannot be resolved through conciliation, the Tribunal may ask for submissions and make a binding determination.

## Further information

Other information concerning the Fund, such as audited financial statements and the auditor's report will be available after 31 October 2009 from

BT Funds Management Limited
