BT appoints Corrin Collocott as new Head of Diversified Portfolio Management, Super & Investment

BT Investment Solutions has appointed Corrin Collocott to the newly-created position of Head of Diversified Portfolio Management, Super & Investment in its investment management team.

Corrin joins BT with over 20 years' experience working across various industries, most recently as Manager, Investment Strategies at Sunsuper.

BT Chief Investment Officer Patrick Farrell says that Corrin will bring valuable skills and experience to the team at a time where superannuation investment strategies are becoming increasingly important to its customers and fund members.

“As superannuation funds continue to grow, so too will the demand for specialist investment services that cater for the needs of fund members over their lifetime and through to retirement. Corrin’s broad experience, as well as his specialisation in superannuation will help ensure that we continue to generate the best outcomes for fund members throughout their superannuation journey.”

BT has also appointed two new portfolio managers. Sonia Bluzmanis, who joins from Colonial First State Investments, will manage the Australian Equities portfolio and Daniel Park, most recently from Perpetual, who will manage Defensive Assets.

“Both Sonia and Daniel join BT with over 10 years’ investment management and financial services experience. They are proven performers and will hit the ground running at BT to ensure they continue to deliver strong results for our customers,” says Mr Farrell.

“As the investment environment continues to undergo this period of uncertainty, BT is focused on building the best team of investment specialist that will allow us to seek every opportunity to boost returns, as well as the flexibility to adapt to the changing market conditions.”

“These new appointments will strengthen our existing capabilities, and ensure we can continue to deliver strong outcomes for our customers,” Mr Farrell concluded.
